DIRECTORS' STATEMENT

The directors present their statement to the shareholder(s) together with the financial statements for the financial year ended 31 March 2025.

In the opinion of the directors:

- (a) the financial statements of the Company are drawn up so as to give a true and fair view of the financial position of the Company as of 31 March 2025 and the financial performance, changes in equity and cash flows of the Company for the year then ended; and
- (b) at the date of this statement, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they fall due.

Directors

The directors in office at the date of this statement is as follows:

Shishodia Yogesh Pratap
Govind Rai Garg
Vaitheeswary (Appointed on 25.06.2025)
Anne Sasikanth

Arrangements to enable directors to acquire shares and debentures

Neither at the end of nor at any time during the financial year was the Company a party to any arrangement whose object was to enable the director of the Company to acquire benefits by means of the acquisition of shares in, or debentures of, the Company or any other body corporate.

Directors' interests in shares or debentures

According to the Register of Directors' Shareholdings kept by the Company under Section 164 of the Singapore Companies Act, Cap 50, the directors who held office at the end of the financial period were interested in shares or debentures of the Company or its related corporations are as follows:

<u>Name of director</u>	<u>Ordinary Shares</u>	
	<u>At the beginning of the year</u>	<u>At end of the year</u>
Shishodia Yogesh Pratap	1,155	1,155

DIRECTORS' STATEMENT (Continued)

Share options

During the financial year, there were:

- (i) no options granted by the Company to any person to take up unissued shares in the Company; and
- (ii) no shares issued by virtue of any exercise of option to take up unissued shares of the Company.

As at the end of the financial year, there were no unissued shares of the Company under option.

Auditors

The Company is a limited private company and has met the requirement for an audit exemption.

Signed by the Board of Directors,

.....

NOTES TO THE FINANCIAL STATEMENTS – 31 MARCH 2025

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

1. Domicile and activities

Exim Routes Pte. Ltd. (the “Company”) is a company incorporated in the Republic of Singapore. The address of the Company’s registered office is 11 Woodlands Close, #04-36H Woodlands 11, Singapore 737853.

The principal activities of the Company are those of wholesale trade of variety of goods without a dominant product non-hazardous and non-toxic waste and freight transport arrangement. There have been no significant changes in the nature of these activities during the financial year.

The immediate holding company is Exim Routes Limited, a corporation incorporated in India.

2. Basis of preparation

2.1 Statement of compliance

The financial statements have been prepared in accordance with the Singapore Financial Reporting Standards (FRS).

2.2 Basis of measurement

The financial statements have been prepared on the historical cost basis except otherwise described in the notes below.

2.3 Functional and presentation currency

These financial statements are presented in United States Dollars (US\$), which is the Company’s functional currency.

2.4 Use of estimates and judgements

The preparation of the financial statements in conformity with FRSs requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

There are no significant areas of critical judgements in the application of accounting policies that have significant effect on the amount recognised in the financial statements or assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial period.

NOTES TO THE FINANCIAL STATEMENTS – 31 MARCH 2025

3. Significant accounting policies

The Company adopted new or revised FRS which became effective during the year. The initial adoption of these new standards did not have a material impact on the financial statements.

The accounting policies set out below have been applied consistently to all periods presented in these financial statements and have been applied consistently by the Company.

3.1 Foreign currency transactions

Transactions in foreign currencies are translated to the functional currency of the Company at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the end of the reporting period are retranslated to the functional currency at the exchange rate at that date. The foreign currency gain or loss on monetary items is the difference between amortised cost in the functional currency at incorporation, adjusted for effective interest and payments during the period, and the amortised cost in foreign currency translated at the exchange rate at the end of the period.

Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined. Non-monetary items in a foreign currency that are measured in terms of historical cost are translated using the exchange rate at the date of the transaction. Foreign currency differences arising on retranslation are recognised in profit or loss.

3.2 Financial instruments

Non-derivative financial assets

The Company initially recognises loans and receivables and deposits on the date that they are originated. All other financial assets (including assets designated at fair value through profit or loss) are recognised initially on the trade date, which is the date that the Company becomes a party to the contractual provisions of the instrument.

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in transferred financial assets that is created or retained by the Company is recognised as a separate asset or liability.

The Company classifies non-derivative financial assets into the loans and receivables category.

Loans and receivables

Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, loans and receivables are measured at amortised cost using the effective interest method, less any impairment losses.

Loans and receivables comprise cash and cash equivalents and trade and other receivables.

Cash and cash equivalents comprise bank balances.

NOTES TO THE FINANCIAL STATEMENTS – 31 MARCH 2025

Non-derivative financial liabilities

The Company recognises all financial liabilities on the trade date, which is the date that the Company becomes a party to the contractual provisions of the instrument.

The Company derecognises a financial liability when its contractual obligations are discharged, cancelled or expire.

The Company classifies non-derivative financial liabilities into the other financial liabilities category. Such financial liabilities are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, these financial liabilities are measured at amortised cost using the effective interest method.

Other financial liabilities comprise of accrued operating expenses.

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Company has a legal right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

For the current year, the above policy is not applicable for the company.

3.3 Impairment

Non-derivative financial assets

A financial asset not carried at fair value through profit or loss is assessed at the end of each reporting period to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably. Objective evidence that financial assets are impaired can include default or delinquency by a debtor, indications that a debtor or issuer will enter bankruptcy.

Loans and receivables

The Company considers evidence of impairment for loans and at both a specific asset and collective level. All individually significant loans and receivables are assessed for specific impairment. All individually significant receivables found not to be specifically impaired are then collectively assessed for any impairment that has been incurred but not yet identified. Loans and receivables that are not individually significant are collectively assessed for impairment by grouping together loans and receivables with similar risk characteristics.

In assessing collective impairment, the Company uses historical trends of the probability of default, the timing of recoveries and the amount of loss incurred, adjusted for management's judgement as to whether current economic and credit conditions are such that the actual losses are likely to be greater or less than suggested by historical trends.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows, discounted at the asset's original effective interest rate. Losses are recognised in profit or loss and reflected in an allowance account against loans and receivables. Interest on the impaired asset continues to be recognised. When a subsequent event (e.g. repayment by a debtor) causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss.

For the current year, the above policy is not applicable for the company.

NOTES TO THE FINANCIAL STATEMENTS – 31 MARCH 2025

3.4 Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is calculated using the first-in first-out method and includes all costs of purchase and other costs incurred in bringing the inventories to their present location and condition. Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs necessary to make the sale.

When necessary, allowance is provided for damaged, obsolete and slow-moving items to adjust the carrying value of inventories to the lower of cost and net realisable value.

3.5 Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from equity, net of any tax effects.

3.6 Dividends

Equity dividends are recognised when they become legally payable. Interim dividends are recorded in the financial year in which they are declared payable. Final dividends are recorded in the financial year in which dividends are approved by shareholders.

3.7 Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authority. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Current income taxes are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss, either in other comprehensive income or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

3.8 Revenue

Sale of goods

Revenue from sale of goods is recognised upon the transfer of significant risks and rewards of ownership of the goods to the customer. Revenue is not recognised to the extent where there are significant uncertainties regarding recovery of the consideration due, associated costs or the possible return of goods.

Rendering of services and handling fees

Revenue from rendering of services and handling fees is recognised when the services have been performed and rendered.

Tax exemption and rebate	(13,014)	(40,183)
Total income tax expenses	<u>40,065</u>	<u>27,131</u>

NOTES TO THE FINANCIAL STATEMENTS – 31 MARCH 2025

10. Trade and other receivables

The average credit period generally granted to customers is about 30 days. A provision for impairment is established when there is objective evidence that management will not be able to collect all amounts due according to the original terms of receivables. The carrying amount of trade receivables approximates to their fair value.

Short duration receivables with no stated interest rate are normally measured at original invoice amount unless the effect of imputing interest would be significant.

12. Share capital

		2025	2024
		US\$	US\$
<u>Issued and fully paid ordinary shares</u>			
At	beginning of the year	25,900	25,900
	Issued of share during financial year	-	-
At	end of the year	<u>25,900</u>	<u>25,900</u>

The holders of ordinary shares are entitled to receive dividends as and when declared by the Company. All ordinary shares carry one vote per share without restrictions. The ordinary shares have no par value.

Capital management

The Company's primary objective in capital management is to maintain a strong capital base so as to maintain investor, creditor and market confidence, and to continue to maintain its future development and growth of the business.

The Company manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders or issue new shares.

There were no changes in the Company's approach to capital management during the year. The Company is not subject to externally imposed capital requirements.

13. Dividends

During the financial year ended:	31 March 2025
The company tax exempt dividends totaling	US\$ -
During the financial period ended:	31 March 2024
The company tax exempt dividends totaling	US\$ 200,000

14. Trade and other payables

Trade payables are recognized at their original invoice amounts which represent their fair value initial recognition. Trade payables are non-interest bearing. Trade payables are normally settles on 30 – 90 day's term.

Other payables are of non-trade nature, interest free, unsecured and repayable on demand.

NOTES TO THE FINANCIAL STATEMENTS – 31 MARCH 2025

	2025 US\$	2024 US\$
<hr/>		
<u>Trade payables</u>		
Third parties	1,112,566	924,020
<hr/>

Others	85,252	92,987
Total trade and other payables	<u>1,893,648</u>	<u>1,363,596</u>

The above amounts due to related companies and related parties are non-trade, unsecured, interest-free and repayable on demand

15. Financial instruments and risk management

The main risks arising from the Company's financial instruments are liquidity risk, credit risk, foreign exchange risk, interest rate risk and fair value of financial assets and liabilities. The policies for managing each of these risks are summarized below:

Liquidity risk

Liquidity risk is the risk that the Company is unable to pay its debts as and when they fall due. To mitigate this risk, the Company maintains sufficient cash balances to meet its working capital requirements and operational needs and where necessary, from funds provided by the directors and shareholders.

Credit risk

The Company manages the credit risk by monitoring creditworthiness and collection from its customers and has no significant concentration of credit risk, with exposure spread over a large number of counter parties and customers.

Foreign exchange risk

The Company is exposed to foreign exchange risk mainly from cash flows from transactions denominated in foreign currencies. It is the Company's policy not to enter into derivative forward foreign exchange contracts for hedging and speculative purposes.

Interest rate risk

The Company is not exposed to significant market risk for changes in interest rates as the Company has no loans and borrowings which are subject to interest charge.

Fair value of financial assets and liabilities

The carrying amounts of financial assets and financial liabilities recorded in the financial statements represent their respective net fair values.

NOTES TO THE FINANCIAL STATEMENTS – 31 MARCH 2025

16. Comparative figures

The financial statements of the company for the year ended 31 March 2025, cover the financial year from 01 April 2024 to 31 March 2025.

The financial statements of the company for the period ended 31 March 2024, cover the financial period from 01 January 2023 to 31 March 2024.

17. Authorisation of financial statements

The financial statements for the financial year ended 31 March 2025 were authorized for issue in accordance with a resolution of the Board of Director(s) on the date stated on the Director's Statement.
